DIMENSIONS & SPECIFICATIONS

Dimensions:

Length: 6 5/16"

Width: 1 3/4"

Depth: 2 1/4"

Total Coverage with Trim Plates: 7" L x 2 1/2" W

Door Thickness: 1 3/16" to 2", up to 5" with Extension Kit

Material: Zinc-plated steel

Teflon coated stainless steel interior components

For Exterior & Interior Use

Weather Resistant

Lifetime Mechanical Warranty

The 3830 is available in four finishes, two of which are Marine Grade finishes: Jet Black Marine Grade (JBMG) and Satin Chrome Marine Grade (SCMG). We recommend the Marine Grade Finish for saltwater environments where the lock will sustain consistent exposure to the elements. It has a much longer lifetime than a standard finish and provides added strength against the corrosive elements of coastal/saltwater environments.
